SPECIAL EXPERIENCE

- ◆ **Airport pick-up ceremony** - A Russian girl in traditional costume, holding a round bread with a plate of salt in the middle, stepped forward to welcome the guests who had come from afar with an ancient hospitality custom.
- ◆ **The lakeside sightseeing train** - Along the way, the scenery is beautiful, with ancient tunnels and trestles stretching continuously. Just like Lake Baikal, it stands quietly in its original place, becoming a part of Lake Baikal, half the lake and half the charm. Each stop has been carefully selected, featuring not only the convergence of natural and cultural landscapes but also the unique scenery of the old Trans-Siberian Railway.

SCENIC SPOT

- ◆ **Kazan Cathedral** - an Orthodox church and the most magnificent church in Irkutsk, it features fairy-tale-like red walls and domes, and its interior is as splendid as a palace. In 1975, the Kazan Cathedral of Our Lady was recognized as a key cultural relic protection unit by the government of the Russian Federation.
- ◆ **Olkhon Island** - Olkhon Island is the largest island in Lake Baikal and the center of Shamanism. The scenery here is magnificent and spectacular, with enchanting sunsets and sunrises. On the way, enjoy the special Briate meal and continue on the way after the meal. Upon arriving at Xiaohai Wharf, transfer to an off-road four-wheel drive bus to head for the largest island in Lake Baikal. Upon arrival, you can head to Shaman Mountain to watch the sunset over Lake Baikal. The sunset over the lake marks the beginning of the first chapter of Olkhon Island!
- ◆ **The Baikal Lake Museum** - Here, the Baikal Lake ecosystem is displayed and introduced, including the flora and fauna that grow and live in the surrounding area and from below the water surface to a depth of 1,700 meters. Only one type of seal that lives in freshwater also makes its home in this museum.
